No problem. Hang in there. We won't write you off just because you can't get away in a crisis.

By the way, if you have any briefing notes that you can share with the "public", I get questions all the time on the Animas issue.

I would be interested in the authority that you were working under. How it would have been different if Superfund was applicable. What REALLY happened at the site, etc.

Not sure the administrator helped. Consensus among many is that EPA should fire their PR staff. Thursday I had dinner with a DU law professor who is going to lead off the semester with the case and he is very pro EPA.

I am sorry Dick I will not be able to play tomorrow but would love to as soon as things get a little more stable and routine.

Martin,

Let me know as soon as you can whether you will be able to play tomorrow. I have a replacement if you won't be making it, but I will need to let him know whether we have a slot.

Dick
